

project B.R.A.I.N.

This interactive CDROM was developed as a learning tool for educators, healthcare professionals and related service providers who work with students that have sustained a traumatic brain injury (TBI). It is dedicated to TBI survivors, their family members and caregivers.

Explore online the rooms of the virtual school while learning about TBI, the causes and potential effects of TBI on an injured person, and suggested strategies and resources for helping students with TBI.

LEARN FROM THE EXPERTS...APPLY WHAT YOU LEARN

Search through local and national resources on TBI

See video interviews with TBI survivors, family members and professionals.

Read about developing and using classroom strategies, with contributions from internationally recognized experts Mark Ylvisaker & Tim Feeney

Apply what you learn to TBI case studies in the classroom

Welcome to our virtual school!

Includes numerous printable documents for use in the classroom and beyond

TENNESSEE DISABILITY COALITION

Project BRAIN is supported in part by project H21MC06739 from the Department of Health & Human Services Health Resource and Services Administration, Maternal and Child Health Bureau. Additional support is from the TN Dept. of Education Division of Special Education. The contents of the Publication are the sole responsibility of the authors and do not necessarily reflect the views of the DHHS. Project BRAIN is a program of the Tennessee Disability Coalition, implemented through a contract with the TBI Program of the TN Dept. of Health.

Project BRAIN is a resource and information network for educators, families, and health care professionals who support students in Tennessee with traumatic brain injury. For more information, call 615/383-9442 or visit our website: www.tndisability.org/brain
